

Soleno Therapeutics

Job Description

Associate Director/Director, Project Management

SUMMARY OF JOB (brief description):

We are seeking a highly motivated individual to join Soleno Therapeutics as a Project Manager at the Associate Director or Director level role. The position will be responsible for providing project management expertise and support to CMC project teams, ensuring that program and project priorities are executed in accordance with Soleno's corporate goals.

RESPONSIBILITIES:

- Establish and maintain integrated project plan(s) to ensure completion of project objectives in a timely fashion and within budget.
- For key meetings (e.g., project team, meetings with partners), prepare agendas, facilitate discussions, prepare minutes, track decisions and issues and action-items, and follow-up on action items to ensure timely resolution.
- Compile, track and maintain status reports of program progress and present to key internal stakeholders.
- Support Finance in developing program budgets and tracking actuals to forecast. Proactively identify areas where there are significant deviations and where resource savings could be realized.
- Review critical documents to ensure they are in line with program and project goals and objectives.
- Coordinate internal resources and CMO/CRO, vendors/suppliers for the flawless execution of projects.
- Other duties as assigned.

QUALIFICATIONS:

- Bachelor's degree in a relevant scientific discipline; a higher degree preferred.
- 10 + years of experience in pharmaceutical project management, including late-state CMC development through commercialization stages.
- PMP certification strongly preferred but not required.
- Must thrive working in a fast-paced, collaborative environment while remaining flexible, proactive, resourceful and efficient.
- Excellent interpersonal skills with the ability to develop important relationships with key stakeholders and strong conflict management and negotiation skills.
- Proven ability to analyze complex issues to develop relevant and realistic plans, programs and recommendations.
- Demonstrated ability to translate strategy into action; excellent analytical skills and an ability to communicate complex issues in a simple way and to orchestrate plans to resolve issues and mitigate risks.
- Strong organizational, facilitation and presentation skills.
- Proven ability to manage complex projects, with the flexibility and adaptability to re-prioritize workload to meet changing timelines.
